

# We're asking ...

# our volunteers to tell a friend

Here at Newlife we really appreciate all the hard work and commitment our wonderful volunteers give us every day.

Whether you volunteer in our Opportunity Centre, help us to raise much needed funds or you spread the Newlife story out in the community, you are a real star.

Without you we could not provide the urgent equipment and services that change the lives of disabled children in the UK.

But more children need our help, so we would love you to tell a friend about Newlife Volunteering Opportunities.

Next time you volunteer *We're asking...* you to bring a friend or relative with you and show them what a great time you can have volunteering at Newlife.

If everyone encouraged a friend to volunteer with them we could double the amount of vital support we provide and change the lives for even more special children across the country.

## Thank you!
