The UK's leading charity provider of children's specialist disability equipment

We aim to provide help and support to all children with disabilities or terminal illness and their families.

How we achieve this

We do this by providing essential disability equipment, such as wheelchairs, specialist beds and car seats for children who would otherwise go without.

Our professional nurse service team provide key information, support and a caring voice when families need it most.

We also help families play together with our Play Therapy Pods and create enduring family memories through our Comfort Capsules.

Finally, we campaign for change nationally and locally and carry out ground-breaking medical research into the causes of birth defects.

Why we need your help

- There are children in your county waiting for equipment that will change their lives.
- Some of these children have a terminal illness and may face a long wait for equipment.
- We are experiencing record demand for help from families and we can't do it without you.

Why Newlife?

- **Our 100% guarantee.** We guarantee that every penny donated is spent on the needs of the children.
- **Local needs.** We track the need in every county. Help a local child, visit www.newlifecharity.co.uk/local.
- **A charity you can trust.** We will tell you exactly how your money has been used to change a child's life.
